# Congratulations on your purchase

*And welcome to our growing gang of savvy shoppers*

We're on a mission to bring you extraordinary bathroom products, for less. From modern to traditional style ceramics, plus the gorgeous fixtures, fittings and furniture to match. So, you can fall in love with your space every single day.

As one of the UK's largest independent bathroom stores, we've received countless awards; including the National Business Awards UK, the Digital Entrepreneur Awards and being placed on The Sunday Times Fast Track 100.

We hope your new product goes above and beyond your expectations. However, should any problems occur, please:

- log in to your account and contact our customer services team via your self-serve portal – [betterbathrooms.com/Account/Login](https://betterbathrooms.com/Account/Login)
- contact us via [betterbathrooms.com/contact-us](https://betterbathrooms.com/contact-us)

## Important information

- Please read these instructions thoroughly and retain for future reference
- Installation must be carried out in compliance with The Water Fittings Regulations and Scottish Water Byelaws.
- The system must be flushed prior to installation, else it might clog the filter and the following phenomenon occurs: discharged water volume is small, or temperature cannot be controlled well.
- Pressures must be equal for optimum performance
- Please do not connect hot and cold water supply lines in reverse. This could result in hot water flowing from cold line and cause scalding.
- The feed-water temperature of water shall not exceed 85°C. Exceeding 85°C may cause scalding, the service life of faucets might be shortened, or the faucet might be damaged.
- After installation, please make sure the faucet is securely mounted and checked for leaks.
-

# Parts / Diagrams

	No	Part Description
	1	Sealing washer
	2	Vertical tube
	3	Flange
	4	Flange
	5	Body
	6	O-ring
	7	Nut
